

Teachers use Mastery Learning Folders in different ways to support classroom learning. Some teachers provide already differentiated flashcard content, others provide the flashcard master sheets and ask parents to pre-test. Please find below a selection of different parent instructions. These can be placed in the spare line of pockets.

Parents can be helped to understand their important role and the Mastery Learning Folder process at a parent meeting or through the video. Sometimes teachers of younger year levels introduce and use the folders at morning drop off time until parents are confident. Your feedback and suggestions are welcome.

Dear Parents,

This Mastery Learning Folder is being used to support the classroom learning program. Your involvement will enable your child to consolidate their learning with individualised material, mastered at their own pace. Pre-test and folder instructions are provided and a video demonstration is available. Please ask if you would like further information.

Kind regards

- ### Folder Set-up and Pre-test Instructions
1. Cut out the flashcards
 2. Pre-test you child on each flashcard for immediate recognition / understanding
 3. Place known flashcards in the Test pocket to await the teacher test
 4. Any flashcards not instantly recalled are placed in the Store pocket
 5. Transfer 7 flashcards into the Hive pocket
 6. You are now ready to begin the Mastery Learning Folder process - see instructions on the back of the folder or view the video

Video Demonstration

- ### Tips for Taking Care of your Folder
- Use a document case or wallet to transport your folder between home and school
 - Train your child to slide flashcards behind behind those already in the pocket and to gently fold open the flap on empty pockets if necessary. Fingers are not allowed inside pockets!
